Before arriving for the treatment

- Please do NOT wax, tweeze or epilate the area for 4 weeks prior to the treatment.
- No fake tans, tanning lotions, or moisturiser to be left on the skin.
- No recent sun exposure or sunburn.

What to expect after your treatment

Redness and swelling for 1-3 days.

You will notice 'dead hair' surfacing 2-3 weeks after treatment. This process is called purging or shedding and will take time to complete. Wipe away these hairs with a damp cloth or loofah once the sensitivity of the treated area resolves.
